

John Donne

An Annotated Bibliography of Modern Criticism, 1912-1967

John R. Roberts. "Its full summaries of the contents of each item will save scholars and students of Donne many hours of needless pursuit of items that may be tangential to their needs."—*Renaissance Quarterly*. "Anyone who writes about Donne in the future will do well to consult Roberts first."—*Yearbook of English Studies*, 1975. "This is an exceedingly useful scholarly tool, one that Donne has long deserved. Roberts has performed a valuable service for seventeenth-century scholars."—*Southern Humanities Review*

John Donne

An Annotated Bibliography of Modern Criticism, 1968-1978

John R. Roberts. Roberts continues in this latest Donne bibliography the high standards of excellence established for his earlier work, *John Donne: An Annotated Bibliography of Modern Criticism, 1912-1967*. In order to convey a sense of the approach and level of critical sophistication of individual items, Roberts often quotes at length in his detailed descriptive annotations, a method that allows the reader to judge for himself the usefulness of a particular book or essay. The chronological listing permits the reader to obtain quickly a sense of the various shifts and developments that occurred in Donne scholarship during the eleven-year period covered. Extended discussions on Donne in books and articles not centrally concerned with him, as well as numerous items in languages other than English, are included.

John Donne's *Satyres*

M. Thomas Hester, North Carolina State
University

"Thomas Hester's study of Donne's five verse satires is, without a doubt, the most comprehensive and detailed critical study of the subject to date. It is a lively piece of critical work, which raises as many questions as it answers, and provokes the reader to think....He has skillfully and unobtrusively woven into the fabric of his own thought the best of modern critical thinking on Donne and on Renaissance satire."
